Presentation title: **Psychoanalysis in War: My Work with Syrian Refugees**

Abstract text up to 15 lines in English:

How to work in wartime? Can we maintain neutrality when welcoming survivors who have experienced hunger, thirst, wandering...?

Can we remain Orthodox? How does this work with refugees allow us to question the framework of therapy: regularity of sessions, payment, fair distance, asymmetry....? How to restart the psychic movement? How is each session created with a patient who has experienced dehumanization?

In this entanglement of the collective and the individual, the tragedy of a country and the drama of each person is expressed.
